

CREDITOR'S RIGHTS AND BANKRUPTCY

SettlePou's section of creditor's rights and bankruptcy lawyers advise and represent the firm's clients in all aspects of workouts, foreclosures, bankruptcy, and commercial litigation. The primary focus is on representation of lenders, and SettlePou has unmatched expertise for representing Small Business Administration lenders with the insight of three of its lawyers who were formerly in house counsel with the Small Business Administration. SettlePou also represents parties in other roles of these practice areas including secured and unsecured creditors, landlords, tenants, and participants in transactions for the purchase and sale of bankruptcy estate assets. The Section approaches the practice with lawyers having varying years of experience and paralegal support to strategically staff and address its clients' needs in an aggressive but cost-efficient manner.
